

TERMATE

ROHS REGULATIONS – TERMATE LIMITED PRODUCTS

Termate supplies products in accordance with the RoHS Regulations.

We can confirm that products supplied by Termate Limited are compliant with RoHS regulation (Directive 2011/65/EU) relevant to the supply of electrical and electronic equipment.

For any products we supply that contain moulded-in brass inserts, we achieve this compliance under the provisions of exemption 6(c). This exemption permits the use of lead at up to 4% weight by weight (w/w) in brass, primarily aimed at achieving suitable machining properties.
